

## JUDICIAL GUIDE TO MOTORCYCLES

### FOR ENDORSEMENT COURSES –

#### **BASIC RIDERCOURSE (BRC) –**

##### **NOVICE LEVEL – 2 WHEEL SINGLE TRACK**

The BRC is the best place for a new rider to start once they've made the decision to ride. Successful completion of this course and its knowledge and skill tests, which consists of approximately five hours of classroom and 10 hours of on-cycle instruction.

#### **SIDECAR/TRIKE EDUCATION PROGRAM – (S/TEP) – TRIKES OR SIDE CAR RIGS – THREE WHEEL/TWO OR THREE TRACK**

The S/TEP course is best place for a new rider to start once they've made the decision to ride. Successful completion of this course and its knowledge and skill tests, which consists of approximately five hours of classroom and 10 hours of on-cycle instruction.

#### **3-WHEEL BASIC RIDERCOURSE – (3WBRC) – TRIKES ONLY - THREE WHEEL/THREE TRACK**

The 3WBRC course is one of the best places for a new rider to start once they've made the decision to ride a 3-wheel motorcycle. This course includes four hours of classroom activities and up to eight hours of on-cycle riding exercises.

#### **EXPERIENCED RIDER ENDORSEMENT COURSE (ERE) – UNENDORSED EXPERIENCED RIDER**

The F RTP ERE course is a training curriculum designed to offer experienced motorcyclists an option to earn their Florida Class-E motorcycle endorsement in a course other than the Motorcycle Safety Foundation's (MSF) Basic *RiderCourse* (BRC). An advantage of completing the ERE, rather than the BRC, is that suitable riders will have the opportunity to develop their real world physical and mental riding skills beyond what may be gained in the BRC.

### SKILLS ENHANCEMENT –

**BASIC BIKE BONDING RIDERCOURSE** – The MSF Basic Bike Bonding *RiderCourseSM* (BBBC) is designed to provide a low

risk, effective and enjoyable training event for participants just starting their riding careers.

**BASIC RIDERCOURSE II** – This course is for riders who already have basic skills. It is similar to the BRC, except the speeds are higher and riders should be riding their own motorcycle. It is an excellent refresher course for practicing and renewing basic riding skills.

**ADVANCED RIDERCOURSE** – This course is a one-day course that complements a rider's basic skills and helps with personal risk assessment. It includes a fast-paced classroom segment with several interactive activities to improve perception and hazard awareness. Range exercises enhance both basic skills and crash avoidance skills. Improving braking and cornering finesse is emphasized. The course is beneficial for riders on any type of street motorcycle. It promotes self-assessment and behavior modification, with a strong message about risk off-set.

**ULTIMATE BIKE BONDING RIDERCOURSE** – The MSF Ultimate Bike Bonding *RiderCourseSM* (UBBRC) is designed to provide a low risk, effective and enjoyable training event for participants who have riding experience. The primary tasks of a RiderCoach are to ensure a low-risk learning environment consistent with MSF principles and to facilitate the development of rider skills and competencies during each exercise and throughout the course.
